“ I had the pleasure of knowing Antonio through his work with the Conejos County Library District while serving on its Board, and assisted with his dedication and determination to keep the Capulin library open and serve the residents of "his" community. He helped coordinate and plan a six-part series on the History of Capulin held at our library, and even took the reins and led a panel discussion when we had a last-minute cancellation. Another fond memory is meeting him at the library one morning when a Cybertruck pulled up and out from the vehicle sprung Capulin Author Diego Martinez, his lovely wife Gail, and a freshly printed book which he wanted to sign and donate to the children of Capulin, Colorado. With our recent successes and surprises, Antonio turned to me one day and said, "This has all been great!! Are you kidding me? You can't make this stuff up!!" Thank you, Antonio, for keeping us laughing, for helping us plant trees, for being Capulin Library's cheerleader, and for being a good friend!! -Carla Rodriguez
