“ *Esther and I did our breast cancer radiation at the same time in 2017. We met at the John Zay house where we were both staying. She was the first person I met when we got there. She and I hit it off right away. Her radiation was 15 minutes after mine. We were there for over 5 weeks. At first I called her my neighbor and then one day I introduced her as my friend. She like that name better. We spent time together talking, laughing, sharing our lives. We tried to stay connected but it was hard up until a couple months before she got really sick. She reached out to me and our friendship took off again. I really will miss my dear “friend” Esther. What a wonderful, smart, kind, loving person. God be with you Esther. Love your friend, Sheila Peterson ❤️*
