“ RIP Maria, my fondest memory of you in my mother's 3rd grade class. I was looking at the class photos of all the children in my mom classes when she taught in CAPULIN.

I was so sad to hear about my childhood friend, my neighbor growing up. How we played ball with all the neighborhood kids until the street lights went on. So many found memories. The Best memory is her kind spirit. Even though we took forever to see each other, when we did see each other, it was like time stood still. RIP My Friend, you will be deeply missed by your family and friends. Prayers for your family. May God give them strength and comfort. 🙏🙏❤️📺❤️📺

“ *My grandma was the most selfless and loving soul. Her presence was always so calming—just being around her brought peace. I’m beyond grateful to have had her in my life. She never missed a holiday and always made sure I felt remembered, even with a simple text just to say she was thinking of me. Her absence leaves a deep ache in my heart, and she will be missed more than words can express. But I know she would want us to celebrate her beautiful life, not dwell in sadness. Her love will live on in all of us.*

“*Maria was like a mother to me growing up. She was my Aunt, my sister, and my best friend. We spoke daily on the phone sometimes as brief as "hey you have to watch this movie, it's on Netflix". She was my go to for everything, tips on cooking, baking, crafts, and all around life. She called everyday on her way to work and if I wasn't able to answer I would call in the evening. She was always calling me to let me know what experience she shared with her resident, most recently the fishing they did which she was so sad she had to miss. She had a great heart and if you didn't know her you missed out. She was my husband's tik tok partner which put a smile on his face with fasting cats and baby laughs, she was amazing. I'm going to miss her everyday, I will miss our phone calls, her advice, her jelly, biscochitos, and the many Pintrest posts we shared. I know I need to move on because she didn't want us grieving. She told me all the time in our many conversations she didn't want us sad and to make sure her grandkids know how much she loved them. That's the heart we lost. I love you so much and the pain of you gone will never go away. Until we are reunited in heaven, I guess I will say "talk to you later"*”

“*I will always remember the love you had for the residents at Evergreen. You were one of my favorite coworkers. I will always remember our talks about what foods were the low point foods for weight watchers and how Hoka shoes were the most comfortable shoes ever! Our conversations were the best and I will always remember how welcoming you were to me when I started working at Evergreen. Until we meet again Maria ❤️*”

“ *She’s the most amazing, caring person. She would always come up to me and check on me. Everytime she would see me doing something repetitive at work she would joke around with me and tell me I should specialize in it haha she had a great sense of humor. Most of all she acknowledged her co workers and made it known she saw you as a person. I will keep her and her family in my prayers*❤️❤️
