“ My name is Loren Mortensen, Dad bought land next to Waldo and we shared the romero ditch with waldo since the late 1960's, and we never had to put in measuring box, to divide the water, we we're always able to agree on the amount that went to each, he was always upbeat and pleasant to get along with. I remember we were pulling out of the place with a load of calves and it was wet from a storm, and we got stuck, here came waldo with his tractor to pull us up the hill and got us out of trouble. He's been a great neighbor to us, we really appreciated him. We will miss him!
